Re: Notice of Impending Legal Action concerning COVID-19 Vaccine Mandates

Dear County Manager Fernando Macias:

In response to your Memorandum mandating that first-responders in Doña Ana County receive COVID-19 vaccination as a condition of ongoing employment, I sent you a Cease and Desist letter on February 8, 2021. That letter notified you that the vaccine mandate is in direct violation of Federal law and must be rescinded immediately. No response to the Cease and Desist Letter has been received. The County is continuing to try to force first responders to receive this vaccine, with many people scheduled to receive it today, February 19, 2021.

This letter is to notify you of impending legal action. My office will be filing for Injunctive Relief by early next week. State and municipal employers may be held liable for damages caused by the experimental shots if employees are not given full freedom of choice without threat of consequences. We will seek to hold personally liable each government official who imposes COVID-19 vaccine mandates. Coercion or duress under the threat of job loss is a violation of Federal law, which requires voluntary and full informed consent to any product marketed under the Emergency Use Authorization.

Experimental COVID-19 vaccines have not gone through the full Food and Drug Administration (FDA) approval processes. They are approved for [Emergency Use only](#). According to [FDA 21 U.S. Code § 360bbb-3](#) "Authorization for medical products for use in emergencies," medical products (including vaccines) which have been granted Emergency Use Authorization may not be mandated.

Sincerely,

/s/ N. Ana Garner
